

2026 Training

ISO-S. Product Foundations

For Channel Partners (Distributors) Class Training Details

This is an introductory class to the best of Walter products specifically oriented towards ISO-S materials. At the end of the class, the attendees will be able to understand the most impactful product families including milling, drilling, threading, turning, and grooving etc.

This class is for Walter Channel Partners (distributors). There will also be local Walter Sales Representatives and Walter Channel Partner managers in the class.

Target Audience: Outside Sales, Territory Managers, On-site Representatives, Metal Working Specialists, Purchasing, etc.

Skill Level: Participants are expected to have a basic understanding of machining processes and cutting tool products. Experience with machining, tool design, CNC programming or other cutting tool related disciplines will be a plus.

Class Format

In person instruction. This is a very interactive class with live Q&A sessions and discussions during the presentation. Additionally, there will be interactive workshops, machine demonstrations, GPS demonstrations, and a Plant Tour.
