

WALTER
Engineering Kompetenz

2026 Training

Product Foundations:
For End Users (Customers)

Class Training Details

This is an introductory class to the best of Walter products. At the end of the class, the attendees will be able to understand the most impactful product families including milling, drilling, threading, turning, and grooving etc. This class is for Walter End Users (customers) accompanied by their local Walter Sales Representatives.

Target Audience: Machinists, CNC Programmers, Manufacturing Engineers, Shop Management, Metal Working Specialists, Purchasing, etc.

Skill Level: Participants are expected to have a basic understanding of machining processes and cutting tool products. Experience with machining, tool design, CNC programing or other cutting tool related disciplines will be a plus.

Class Details
